Lab05-Loop Engineering

Lab05-Loop Engineering

YY: 03

Complete the following free courses. Use Git to track your notes and code for each course. For each course, submit your notes, source code files, and screenshots as proof of completion.

In addition, include a README.md file describing how AI assisted you with these exercises.

Please make sure your submission follows the folder structure described in the Policies.

Exercise 1 - Introduction to LangChain - Python

https://academy.langchain.com/courses/foundation-introduction-to-langchain-python

Exercise 2 - Introduction to LangGraph - Python

https://academy.langchain.com/courses/intro-to-langgraph

Exercise 3 - Loop Engineering
